Hoosier FK Kart Racing Tires

Champions On Dirt and Hoosier Racing Tire representatives are pleased to offer drivers an opportunity to win extra money, while at the same time provide incentive to run Hoosier's recently released FK kart racing tire.

Hoosier is confident that the FK will provide consistency and improve kart performance. The new FK tire is designed for larger oval kart tracks that require roll speed. After extensive testing, the FK's characteristics provide superior grip while at the same time allows for a great amount of roll speed.
